

J30 Chair by Sedia systems

Designed by James Morrow, the J30 was developed to complement today's architecturally refined interiors and delivers contemporary design and comfort with a variety of accessory and finish options.

***About the manufacturer: Sedia Systems** is a leading manufacturer of lecture hall and auditorium furniture, offering a wide range of fixed seating for education, corporate training and public assembly environments. Sedia Systems' passion is to provide insightfully designed fixed seating solutions grounded in a client-focused approach. Its high-quality line of products and superior service drives solutions, collaborative relationships and seamless implementations.*
