VENEER COLLECTION 7130 / 7131 / 7132

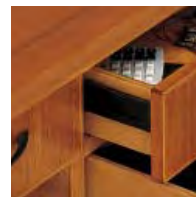

Transitional design - An elegant transitional design is achieved with shaped base mouldings and double reeded crown mouldings. All desks feature shapely bowed tops and arched modesty panels. All top surfaces feature a durable UV finish resistant to stains, mars and scratches. Profiled drawer pulls neatly compliment the transitional style.

Function - The Belmont series not only delivers elegant styling but provides needed function as well. All cases are equipped with easy to adjust floor levelers. All drawers are suspended on fully extending, metal ball-bearing slides. File drawers accept letter or legal side-to-side and letter front-to-back hanging files.

For that polished look, center and top drawers are felt-lined. Additionally the center drawer on the executive desks has a wood pencil tray.

Construction-Belmont features a construction of hardwoods and veneers on wood products with mortise and tenon engineering as well as wood cleats, glue, staples and screws. Drawers feature a solid wood five-piece construction with three-ply veneer bottoms and dovetail joints.

The warmth of transitional styling enhanced with elegant details. Inlaid cherry veneer bordered by walnut banding and double beaded crown moldings provide unique details. Executive nuances in bow front work surfaces and felt-lined box and center drawers provide an aire of distinction. All top surfaces have a durable UV finish. Available in an Executive Cherry (7130), Sunset Cherry (7131) or Brown Cherry (7132) finish.

VENEER COLLECTION 7130 / 7131 / 7132

Transitional design - An elegant transitional design is achieved with shaped base mouldings and double reeded crown mouldings. All desks feature shapely bowed tops and arched modesty panels. All top surfaces feature a durable UV finish resistant to stains, mars and scratches. Profiled drawer pulls neatly compliment the transitional style.

Function - The Belmont series not only delivers elegant styling but provides needed function as well. All cases are equipped with easy to adjust floor levelers. All drawers are suspended on fully extending, metal ball-bearing slides. File drawers accept letter or legal side-to-side and letter front-to-back hanging files.

For that polished look, center and top drawers are felt-lined. Additionally the center drawer on the executive desks has a wood pencil tray.

Construction-Belmont features a construction of hardwoods and veneers on wood products with mortise and tenon engineering as well as wood cleats, glue, staples and screws. Drawers feature a solid wood five-piece construction with three-ply veneer bottoms and dovetail joints.

The warmth of transitional styling enhanced with elegant details. Inlaid cherry veneer bordered by walnut banding and double beaded crown moldings provide unique details. Executive nuances in bow front work surfaces and felt-lined box and center drawers provide an aire of distinction. All top surfaces have a durable UV finish. Available in an Executive Cherry (7130), Sunset Cherry (7131) or Brown Cherry (7132) finish.

EXPANDABLE TABLES PROGRAM

DMI Office's Belmont Expandable Conference Table program offers exceptionally handsome veneer conference tables with the flexibility of size and shape (rectangular and boat shaped) to suit your conference needs. Not only are the tables designed for flexibility of size but they are also engineered to neatly accommodate cable management. The program consists of eleven basic components that allow you to create tables starting at 8' or 10' and expanding in 4' increments.

BASIC COMPONENTS:

48" LEFT AND RIGHT SECTION BOAT SHAPED EXPANDABLE TABLE TOPS

FEATURES:

- Each top has a pre-installed grommet.
- Tables constructed of veneer, wood solids and wood product. Tops feature decorative marquetry cherry veneers bordered by walnut veneer banding protected with a UV top coat resisting scratches, marring and abrasion.
- Included mending plates ensure proper top alignment and secure assembly (1).
- Each base has six adjustable levelers that also assist in correct alignment and assembly.
- Designed with rails providing stability, adding style and helping to conceal the functional wire management troughs (2).
- Wire management troughs or trays provide aesthetically pleasing means to safely manage cables (3).
- Base component designed with cable opening at the top (4) and vertical channel within the base to guide cables out through bottom of the base.
- The cable opening in the top components are also positioned and sized to facilitate the installation of optional data ports/power centers (4).
